---

**David/Mickey**

**C4 will be picking up VB610 and VB640 today for cleaning. You have previously authorized C4 to keep VB610 and VB640 if they pay for transport of boxes to cleaning facility, clean the boxes, and provide you with a cleaning certificate.**

**In order to expedite permanently removing these boxes off the site, I would like you to provide the same authorization to C4 under the same conditions as the previous boxes above. The remaining boxes are: VB406, VB607, VB618, VB633, VB639, VB641\*\*, and RO620.**

**\*\* Note: VB641 may be disposed along with the waste as the cost of removing the waste from the box may not be cost effective.**

**Thanks**

**Subject:** RE: CES: VB640 and VB610

That is my understanding. C4 just needs to provide the trustee with the cleaning certificate and he will provide the transfer to C4.

From my Android phone on T-Mobile. The first nationwide 4G network.

**Mickey:**

The contents of these vac boxes have been removed. It is my understanding that the Estate is giving those boxes to C4 Environmental for the price of transportation to a cleaning facility, cleaning the boxes, and providing you with a certificate of cleaning for your records.

It is my understanding that these boxes will be shipped with a bill of lading with a copy of the original manifest where we sent the material to Veolia. It is also my understanding that these boxes will need to be placarded for the transportation to the cleaning facility.

Could you confirm that this?

Thanks
